# About Company

Powering Your Lives: We at Jivah Are Lighting the Way to India's Progress

At Jivah, we're proud to be trailblazers in the electrical manufacturing industry, redefining how India powers up! Our extensive product portfolio—ranging from high-performance LEDs and energy-efficient fans to robust switchgears and industrial solutions—is electrifying homes, industries, and businesses across the nation.

Our dynamic leadership team drives us forward with innovation and sustainability at our core. We're committed to ensuring every product we create meets global standards while remaining affordable and accessible for every Indian. With cutting-edge manufacturing facilities and a dedicated workforce, we deliver quality and reliability in every spark and switch.

But for us, it's not just about products—it's about progress. As India surges ahead, we stand as a trusted partner, lighting up dreams, powering industries, and supporting infrastructure growth. Our mission, "Powering Your Lives," goes beyond electricity—it's about energizing lifestyles and empowering futures with smart, sustainable solutions.

Our journey is one of innovation, resilience, and a bright vision for India's future. From homes to high-rises, factories to festivals—we're sparking change and lighting the way forward.

Bright ideas, bold moves—that's who we are. We are Jivah.

**MR. SANJAY BHUTORIA**  
Managing Director

At Jivah, we don't just manufacture electrical goods—we create solutions that power lives, homes, and industries across India. As a proud Indian company, our mission is deeply rooted in contributing to a self-reliant India. Every product we make, from our advanced LEDs to our robust switchgears, and especially our wide range of fans, is a testament to our commitment to quality and innovation.

Our fans are more than just appliances; they are a symbol of our vision to bring comfort and efficiency to every corner of the nation. Be it for homes, offices, or industries, we design and manufacture every component in-house, ensuring that our products deliver unmatched performance, durability, and value. This end-to-end approach allows us to stay true to our “Make in India” promise while fostering growth and creating opportunities for local talent.

Jivah's mission goes beyond manufacturing—we aim to illuminate lives, cool aspirations, and power dreams. As we continue on this journey, we are committed to pushing the boundaries of technology and sustainability while keeping the needs of the Indian consumer at the heart of everything we do. Together, let's keep powering India forward.

## Our Manufacturing Units

# TECHNOLOGICAL REVOLUTION

## BLDC TECHNOLOGY

Jivah's ceiling fans are engineered with cutting-edge Brushless DC (BLDC) technology, delivering unparalleled energy efficiency that can reduce electricity consumption by up to 60% compared to conventional fans. Our fans seamlessly integrate into any living space, enhancing the aesthetics while ensuring optimal cooling and sustainable energy use. Advanced engineering techniques allow for precision-crafted fan blades that rotate at high velocities, maximizing airflow and creating a powerful yet whisper-quiet breeze. With Jivah, you experience the perfect fusion of sophisticated design and advanced technology for a superior indoor climate.

### BREEZE INTO THE FUTURE:

Jivah fans cut energy costs, not comfort!

### COOL DOWN WITHOUT THE GUILT—

Save energy and enjoy the chill!

### SILENT BUT MIGHTY:

Experience a whirlwind of efficiency with Jivah!

### LESS WATTAGE, MORE WOW:

Elevate your comfort with intelligent cooling!

### STAY COOL, SAVE GREEN:

Jivah fans are a breath of fresh air for your wallet!

# BLOOMFLO

1200 mm

## TECHNICAL SPECIFICATIONS:-

- ≡ AIR DELIVERY - 250 cmm
- ⚡ VOLT - 230
- Ⓜ WATT - 40
- ⚡ SPEED - 220 RPM

## SALIENT FEATURES:-

- Energy-Efficient 1-Star Rating: Low power consumption for cost savings.
- Available in Black & White to suit any decor.
- Aerodynamic Blades: Maximizes airflow for enhanced cooling.
- Durable Powder Coating: Ensures a long-lasting, high-quality finish.
- Remote Control: Convenient control at your fingertips.
- 50%+ Electricity Savings: Significant reduction in annual energy costs.
- Integrated LED Light in Fan, Combines powerful illumination with cooling.
